@[simonmlewis](#) A lot of teachers have already created many good resources. Do we need more sharing? A culture-shift? **#edchatie**

magsamond Mags Amond

#edchatIE @[seomraranga](#) - general level of ICT integration is almost zero. Apart from TY. @[fboss](#) - not sure what the examining will be yet

Is the answer good (and free) Irish-made, Irish-curriculum resources? **#edchatie**

simonmlewis Simon Lewis

#edchatie I think we have to be careful not to rush though. Spoonfeeding teachers with the next step up from the IWB?

@**CuffeL** **#edchatie** What's Trailmeme's?

1 hour ago

fboss fboss

@

@**magsamond** **#edchatie** - does that mean, like with technology, it'll be examined using ICT as well? As in marks allocated to it?

1 hour ago

magsamond Mags Amond

#edchatIE aaagghh - light at end of tunnel that shoulda been. going to find the specs this minute

1 hour ago

seomraranga Seomra Ranga

@

@**magsamond** **#edchatie** If the focus is on points in 2nd level, what is the general level of ICT integration like?

1 hour ago

magsamond Mags Amond

#edchatIE loght t end of tunnel for me - new Leaving Cert Science syllabi will have students making multimedia presos, can't wait for that

@

@**seomraranga** **#edchatie** Almost too late. I think teachers have an appetite for it. How to harness it is the challenge

CuffeL Laurence Cuffe

Digital creator at the art end, Class blogs, Wikis, Trailmeme's etc. Programing etc. is tricky, but dump ecdl and you have time**#edchatIE**

seomraranga Seomra Ranga

#edchatie I thought we missed the boat when ICT didn't get a look in when we were doing in-service on revised curriculum. Is it too late now

1 hour ago

magsamond Mags Amond

#edchatIE I'm thinking that rote learning is rewarded at the moment, teacher sees "no point(s)" in using ICT in class

1 hour ago

seomraranga Seomra Ranga

#edchatie @magsamond Maybe you could expand on what you're thinking Mags?

1 hour ago

sarahmaher2000 sarah maher

Or better integration of subjects with ict? The vast majority of our history lessons are done on our iPods **#edchatie**

1 hour ago

simonmlewis Simon Lewis

I also think our curriculum is well out of date already. Project/problem-based curriculum would lend itself well to ICT **#edchatie**

1 hour ago

magsamond Mags Amond

#edchatIE more creative higher order learning outcomes across all curriculum syllabi needed I MHO

simonmlewis Simon Lewis

@

@seomraranga **#edchatie** I agree. I think it goes back to the overcrowded curriculum at primary level

#edchatie OK I'll kick off with the obvious point, reduce the amount of curriculum subjects to allow for integration of ICT?

@**magsamond** **#edchatie** Tonight's topic starting now: How to reform the curriculum to better integrate ICT? Discuss.

1 hour ago

magsamond Mags Amond

That's the end of University Challenge Mondays for another year. What'll I do next week at 8pm? Ok, time for **#edchatie**, what's the topic eh?
