16-May-11 21:29 | boyledsweetie

#edchatie then we wd have quizzes, feedback questionnaires, wikies, forums etc & web1ish "course notes" which cd be done in google docs

16-May-11 21:25 | clareire

@clareire agree re hubs in Moodle #edchatie

16-May-11 21:25 | pamelaabrien

#edchatie srry just catching end of this - all gr8t stuff - wd be great if schools wd share content via community hubs in moodle [1]

16-May-11 21:23 | clareire

@levdavidovic Glad you liked it - it is one hell of an hour (or more) but always worthwhile #edchatie

16-May-11 21:18 | fboss

@fboss thanks for that discussion, learned more in half hour than in whole Dip year!! #edchatie

16-May-11 21:12 | levdavidovic

@fboss #edchatie Lol "The current higher education textbook industry has voiced stiff opposition to adoption of open textbooks"

16-May-11 21:12 | conpower

@fboss One would hope anyway. That's trip number 4 for the school now - hope to travel again in '12. Anyway, great work on #edchatIE again!

16-May-11 21:08 | humphreyjones

@conpower Feel fre to pick away - that sounds like it would interest a lot of teachers.Thjis might help = <http://bit.ly/la3FPN> #edchatie

16-May-11 21:06 | fboss

@fboss absolutely, it was like meeting old friends even though I was only meeting them #edchatIE #ictedu

16-May-11 21:04 | pamelaabrien

@levdavidovic #edchatie Might pick your brains. I was seriously considering compiling a complete open source JC course this summer.

16-May-11 21:03 | conpower

@fboss well done Fred on a great (extended) #edchatIE. Really enjoyed tonight's one, especially after putting names to faces at #ictedu :-)

16-May-11 20:59 | pamelaaobrien

RT @saorog: #edchatie Note to self, push @levdavidovic off boat before it sinks ~~~hey!! Glug..glug...glu.....

16-May-11 20:58 | levdavidovic

@fboss thanks Fred!! #edchatie

16-May-11 20:57 | AnseoAMuinteoir

@fboss Thank for another great #edchatie. How do you do that transcript thing? Is it complicated?

16-May-11 20:57 | emernowlan

Thanks everyone for chatting tonight. Transcript from #edchatie No.11 available on <http://fboss.delivr.com/15231> from tomorrow morning

16-May-11 20:56 | fboss

Whoops. Missed #edchatIE again this evening. Hope it was another productive session. Looking forward to the summary @fboss!

16-May-11 20:56 | humphreyjones

@levdavidovic cheers!! #edchatie

All added to list @conpower @pamelaaobrien @mariefarren @friedacrehan @johnmayo @mrNeilButler #edchatie

16-May-11 20:55 | levdavidovic

@fboss went to finish dinner, somehow missed a huge chunk of everything despite being gone for 2 mins! Great chat Fred well done!! #edchatie

16-May-11 20:55 | AnseoAMuinteoir

#edchatie will need to pay close attention to transcript to see how the chat developed from IEPs to writing books -night all and thanks Fred

16-May-11 20:54 | treezacu

16-May-11 20:52 | fboss

Time to go, thanks all for another great #edchatie and to @fboss for organising

16-May-11 20:52 | donenda

@fboss Struggling to keep up there's so much going on, thank goodness for the transcript! #edchatie

RT @saorog: #edchatie I found the book with all subject matter for all subjects: <http://bit.ly/mJqAuu>

16-May-11 20:51 | fboss

@levdavidovic count me in too!! Primary teacher (subbing) #edchatie

16-May-11 20:51 | AnseoAMuinteoir

@johnmayo History is history. With a network of teachers building up cc licensed pictures shouldn't be hard #edchatie

16-May-11 20:51 | conpower

Well, we've moved the discussion along from IEPs to their use in VLE's to producing textbooks. One hell of an interesting #edchatie tonight

16-May-11 20:50 | fboss

arrgh, amateur mistake, mentioning the eye pad - here comes the spam!! #edchatie

16-May-11 20:50 | donenda

16-May-11 20:50 | saorog

@donenda #edchatie EPUb is cool with page flicking real book goodness combined with multimedia videos, audio etc

16-May-11 20:49 | conpower

@saorog true - but an electronic one for iPad/Android tablet could have some life I reckon #edchatie

16-May-11 20:49 | donenda

#edchatie I can imagine the sh@\*te storm if we did create an online course book

16-May-11 20:48 | johnmayo

@treezadcu ..And you admitting to f2f collaboration at the very start? :- ) #edchatie

16-May-11 20:48 | fboss

RT @saorog: @donenda #edchatie I like the idea of open textbooks too, but a school book may be a quaint idea in a few years time.

16-May-11 20:48 | emernowlan

@fboss #edchatie Yeah its quite cool. An approach like that would be great. If we set up a teacher wiki that you could make a lá carte book

16-May-11 20:47 | conpower

@saorog @conpower VLEs / epub / anything else that allows tailoring to students needs has to be good. Esp if used with IEP. #edchatie

16-May-11 20:47 | emernowlan

@conpower Yes, wikipedia concerns aside it's a great idea. Also liking all the paper.li that we're seeing from Tweepsters #edchatie

16-May-11 20:47 | donenda

@saorog #edchatie Yup! Think we're talking open source school e-books now. Why can't students generate a textb... (cont) <http://deck.ly/~J8yMU>

16-May-11 20:47 | fboss

@saorog I'll add you if you like, we're all in same (sinking?) boat #edchatie

16-May-11 20:46 | levdauidovic

@levdauidovic #edchatie I'm a tweeting teacher aswell

16-May-11 20:46 | mariefarren

#edchatie When I was teaching in the Wales they clustered schools to develop resources and SOW. Each school covered a section of the course

16-May-11 20:46 | conpower

@levdauidovic Count me in but like @saorog I'm a lecturer, can I please be included :- ) #Edchatie

16-May-11 20:46 | pamelaobrien

@conpower #edchatie Wikipedia books are cool but Jimmy Wales terrifying eyes staring out of the cover put me off

16-May-11 20:46 | saorog

I've never done it, but you can pull together articles on Wikipedia, combine them and create your own PDF - one way of doing it #edchatie

16-May-11 20:45 | fboss

@donenda #edchatie Have you seen the wikipedia feature for generating books - its pretty cool. (Waits for people to bitch about Wikipedia)

16-May-11 20:45 | conpower

@donenda #edchatie I like the idea of open textbooks too, but a school book may be a quaint idea in a few years time.

16-May-11 20:45 | saorog

@levdauidovic #edchatie What about Tweeting lecturers?

16-May-11 20:44 | saorog

I really like this idea of open source textbook, Google Docs sounds like a great platform for this #edchatie

16-May-11 20:44 | donenda

I've started a list of tweeting teachers if anybody is interested in being added let me know #edchatie

16-May-11 20:44 | levdauidovic

#edchatie re developing open books - how many books does JC maths need to buy of PM? I was told 5?

16-May-11 20:42 | treezacu

@conpower Take a look at <http://www.opensourcetext.org/> #edchatie - lot of open source text books happening here

16-May-11 20:42 | fboss

@saorog: @conpower: #edchatie " all the course content for every subject" - impossible. content should change all the time.

16-May-11 20:42 | emernowlan

@conpower Other history teachers here? @johnmayo is one, any more? #edchatie

16-May-11 20:41 | donenda

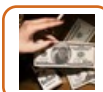

@saorog @conpower we use Moodle - great for uploading content but also good for giving feedback, uploading assessments etc... #Edchatie

16-May-11 20:41 | pamelaobrien

#edchatie Arnie got fed up of spending millions on book in Cali and started paying teachers for content to make state sponsored text books

16-May-11 20:41 | conpower

#edchatie I am History too Count me in!

16-May-11 20:41 | friedacrehan

@saorog #edchatie agree with you on sharing - its getting better. & and to you, we were accessing your material on Scratch today in school

16-May-11 20:41 | treezacu

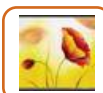

@donenda #edchatie If the appetite was there I would like to give it a go, esp in my subject (History). Put together a PDF/Epub with links

16-May-11 20:40 | conpower

RT @friedacrehan: #edchatie No Ambition F%\$K All Intrest! NAFAI

16-May-11 20:40 | saorog

@fboss @conpower sharing quizzes was something I was looking into a while back but never got it off the ground #Edchatie

16-May-11 20:40 | pamelaobrien

@conpower: #edchatie "how powerful it would be to have all the course content for every subject" 3rd level already has this effectively

16-May-11 20:40 | saorog

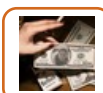

#edchatie really sorry missed this tonight. Will check out the summary

16-May-11 20:40 | mariefarren

FB as IEP? VLE to store/monitor IEP? Who keeps IEP score - student or teacher or both? We've touched on a lot in tonight's #edchatie

16-May-11 20:39 | fboss

#edchatie No Ambition F%\$K All Intrest! NAFAI

16-May-11 20:39 | friedacrehan

@saorog Thank you!  
#edchatie

16-May-11 20:38 | MoloneyKing

RT @johnmayo: #edchatie Teachers need to learn to share ;-) Amen to that brother. I was thinking of starting an open source schoolbook

16-May-11 20:38 | conpower

@conpower Do yo usave all quiz questions globally so all teachers have access to them? Could be way of encouraging sharing #edchatie

16-May-11 20:37 | fboss

@emernowlan Doesn't need huge input from all teachers.?? that's my point - doesn't even have to be a teacher at all #edchatie

16-May-11 20:37 | treezadcu

#edchatie Teachers need to learn to share ;-)

16-May-11 20:37 | johnmayo

NAFAI ? #edchatie

16-May-11 20:37 | saorog

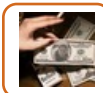

RT @johnmayo: #edchatie we defo need to put a list of tweeting teachers together - I think we have reached a tipping point x2

16-May-11 20:37 | AnseoAMuinteoir

@conpower Yes i agree, the quizzes take a lot of work. Great that the questions are reusable, but takes time to build them up #edchatie

16-May-11 20:37 | donenda

#edchatie "some" teachers are very NAFAI at the moment about everything terrible atmosphere in schools!

16-May-11 20:37 | friedacrehan

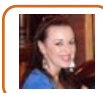

@johnmayo #edchatie It can be very frustrating with teachers training this and training that. Most on facebook without any training

16-May-11 20:37 | conpower

RT @friedacrehan: #edchatie I think For an IEP to work it must be created with the individual not for them at senior second level the learners should DIY

16-May-11 20:36 | lissmiss

@levdavidovic So much bullying happening by text and social network. A very cowardly way to harass one #edchatie

16-May-11 20:36 | Ziggystarduster

#edchatie we defo need to put a list of tweeting teachers together - I think we have reached a tipping point

16-May-11 20:36 | johnmayo

@saorog @johnmayo @friedacrehan: #edchatie -wondering if we'll skip past what VLEs are at present and maybe pick up at the stage of VLE 2.0

16-May-11 20:36 | fboss

Lots on using Moodle at second-level on this blog: <http://bit.ly/kDmrDX>. Or join Moodle Uer Group #edchatie

16-May-11 20:36 | emernowlan

@donenda #edchatie at what point will being a teacher and not using a VLE be like being a teacher and not using books?

16-May-11 20:34 | saorog

#edchatie Really enjoyed tonight's discussion; now for tomorrow's lesson plans - signing off for today!

16-May-11 20:34 | SabineMcKenna

@conpower Interesting that you say 'just more links to click' - is that largely what it's being used for? #edchatie

16-May-11 20:34 | donenda

#edchatie its training the teachers to use a VLE that would be the problem i have 1200 kids using google apps but the teachers ;-)

16-May-11 20:33 | friedacrehan

@evelynoconnor As @johnmayo says -we need more principals online -would your principal be interested in #edchatie Would there be any others?

16-May-11 20:33 | fboss

#edchatie gotta go tweeters. it's been sweeter than cherry pie and in the blink of an eye it's time to retire. later all

16-May-11 20:33 | evelynoconnor

@MoloneyKing #edchatie Stop vote begging, we all already voted for you!

16-May-11 20:33 | saorog

#edchatie Oh remember2VOTE4me, clickon d "On the fence" button top left of blog. PLZZZZZZZ  
<http://teachermoloneyking.com/p/ict.html>

16-May-11 20:32 | MoloneyKing

@donenda #edchatie Yep, but I would say we have most of our content on google docs/sites

16-May-11 20:32 | conpower

@saorog that's shocking. With Maths can teach students more sometimes when things don't work out perfectly #Edchatie

16-May-11 20:32 | pamelaabrien

@evelynoconnor great stuff, let us know how you get on with it #edchatie

16-May-11 20:32 | donenda

@evelynoconnor #edchatie VLEs can be very cheap to implement. Lunchtime/after school computer clubs provides access.

16-May-11 20:32 | conpower

@Ziggystarduster blocked in our school too, but it's what goes on when they go online at home that causes real problems #edchatie

16-May-11 20:32 | levdavidovic

@evelynoconnor Agree-the digital divide and how can we overcome it?Would it have a negative impact on students & their IEP though? #edchatie

16-May-11 20:31 | fboss

@conpower Is it Moodle you're using? #edchatie

16-May-11 20:31 | donenda

@donenda #edchatie Pupils like it in out experience. I don't think they give it much thought, just some more links to click.

16-May-11 20:31 | conpower

@saorog I would hope lots, I know I did when I taught programming. Always go off piste now when teaching Maths #Edchatie

16-May-11 20:30 | pamelaaobrien

@evelynoconnor #edchatie but only 1 out of class is not bad

16-May-11 20:30 | saorog

#edchatie @fboss she said they go to her sisters house sometimes to use internet. reality of VLE's is danger of exclusion. dept won't pay!

16-May-11 20:30 | evelynoconnor

@saorog #edchatie Could you imagine an Irish teacher who never spoke Irish for fear of making a mistake?

16-May-11 20:30 | saorog

Really great #edchatie - so much so, I forgot the 10min warning - only 1min left now - but keep the discussion going & I'll capture it all.

16-May-11 20:29 | fboss

I have been tweeting with Irish educators on #edchatie for the last hr. Thanks to all.

16-May-11 20:29 | ConnollyTrevor

#edchatie @fboss lots of students are with meteor cause free texts but no internet usage in contract so very expensive when they do use it.

16-May-11 20:29 | evelynoconnor

#edchatie really enjoyed that, the #edchaie search is being stremed to my blog if ppl want to suss out tweets. Chat later!

16-May-11 20:29 | MoloneyKing

RT @Ziggystarduster: Arsebook is blocked in our school. @levdavidovic and for good reason #edchatie

16-May-11 20:29 | treezadcu

Does anyone here have experience of using VLEs in school? How well do the pupils engage with it? #edchatie

16-May-11 20:29 | donenda

RT @emernowlan: @friedacrehan Agree students should defintely develop own IEPs - in conjunction wth teacher/mentor - and parents if younger #edchatie

16-May-11 20:28 | conpower

@levdavidovic #edchatie But the Leaving Cert is more surgical too in the precision of grade breakdown by step... (cont) <http://deck.ly/~YF0wy>

16-May-11 20:28 | fboss

@pamelaaobrien #edchatie True about confidence but to give one example, how many sdev lecturers code live in front of class?

16-May-11 20:28 | saorog

#edchatie @johnmayo reckon my stats might not be representative of the entire country. my kids skip school to go to ploughing championships

16-May-11 20:28 | evelynoconnor

@evelynoconnor #edchatie Very little training for students. They are used to consuming everything online.

16-May-11 20:27 | conpower

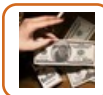

@saorog confident lecturers inspire confidence but bigger social issue I think #edchatie

16-May-11 20:27 | pamelaobrien

@evelynoconnor Out of interest, did she have a mobile phone? Is it internet enabled? #edchatie

16-May-11 20:27 | fboss

#edchatie I think For an IEP to work it must be created with the individual not for them at senior second level the learners should DIY

16-May-11 20:26 | friedacrehan

#edchatie At second level I have a number of classes of C. 30 students once a week. IEPs?? would be lucky to remember their names!

16-May-11 20:26 | conpower

@evelynoconnor was that tut tut to me - I haven't been bold (yet!) #edchatie

16-May-11 20:26 | johnmayo

Guided learning journals to aid their learning and revision skills very useful for all kids #edchatie

16-May-11 20:26 | lissmiss

COuld you use FB to help with socialising for an IEP? FB keep changing the privacy rules, so it's extra work to keep up with it #edchatie

16-May-11 20:26 | fboss

Re facebook in school, experience in our school is entirely negative, students are printing screengrabs to help catch bullies #edchatie

16-May-11 20:25 | levdaidovic

#edchatie if VLEs allowed in class how much IT training would students need? lots bought memory stick cause I told them too. Mayo - tut tut

16-May-11 20:25 | evelynoconnor

@conpower #edchatie Picture it now..out side, living2learn, hvin d best Hedge scl masters n an Ipad...no books..only 4 showNtell History !!

16-May-11 20:25 | MoloneyKing

#edchatie Definitely would not like to use FB, that's why I'll look into Edmodo ASAP. Keep it separate for school!

16-May-11 20:25 | SabineMcKenna

@evelynoconnor Doesn't need to mean extra paperwork. Good teachers monitor sts' needs and plan for future learning anyway. #edchatie

16-May-11 20:25 | emernowlan

@saorog Think that's common with all students of all ages - they can smell you out in a nano-second if you're not ready #edchatie

16-May-11 20:24 | fboss

@friedacrehan #edchatie We've been using Facebook and Google talk with students with no issues wrt to professional distance. Logs are grea

16-May-11 20:24 | conpower

IEPs part of a whole change in how we do things - move from top-down curriculum to learner-centred. approach. Not just add-on. #edchatie

16-May-11 20:23 | emernowlan

#edchatie It would be very difficult for teachers to keep their professional distance via FB

16-May-11 20:23 | friedacrehan

@MoloneyKing #edchatie You can run a decent Hedge school with Ipads

16-May-11 20:23 | conpower

@johnmayo completely disagree with analysis there, my experience is of teachers becoming more and more surgical in their precision #edchatie

16-May-11 20:22 | levdaidovic

RT @SabineMcKenna: @evelynoconnor #edchatie IEPs will just add to workload if imposed; if a teacher choose... (cont) <http://deck.ly/~7jPJ5>

16-May-11 20:22 | fboss

RT @evelynoconnor: #edchatie we don't want to go down the route of making teaching overly paperwork driven and scare off potentially great teachers

16-May-11 20:22 | Ziggystarduster

@treezadcu f2f? What's that in the 21st Century? :-)) Welcome to the discussion #edchatie

16-May-11 20:22 | fboss

#edchatie A whole industry could grow out of IEPs for all students, developed by consultants, to be carried through by teachers

16-May-11 20:22 | treezadcu

@donenda #edchatie Thats the fear. Build your courses up and watch them disappear. I guess once you keep your source material u can rebuild

16-May-11 20:21 | conpower

#edchatie asked students today, small class mostly disadvantaged kids. one had no computer no internet acces. poor kid, lovely girl.

16-May-11 20:21 | evelynoconnor

@SeanDeLuain Thanks for that link #edchatie - Is the student's view of their own work in this reflection wha... (cont) <http://deck.ly/~Kk4AT>

16-May-11 20:21 | fboss

#edchatie Bill Gates foundation is investing in a FB for Education as a platform to the tune of \$10m-

16-May-11 20:21 | johnmayo

@saorog not sure that some even give 1 chance and also not sure it's just unprepared lecturers #Edchatie

16-May-11 20:21 | pamelaabrien

@saorog #edchatie hahaha dats gas,I want d TECH of a new school but d spirit of a Hedge school!

16-May-11 20:21 | MoloneyKing

RT @evelynoconnor: #edchatie we don't want to go down the route of making teaching overly paperwork driven and scare off potentially great teachers

16-May-11 20:21 | levdaidovic

@conpower more likely that we'd see a 'paid for' version appear than the whole thing disappear, that's more the pattern #edchatie

16-May-11 20:20 | donenda

@pamelaaobrien #edchatie 3rd lvl students smell fear and unprepared lecturers. They give 1 chance only

16-May-11 20:19 | saorog

#edchatie i am VERY uneasy with using FB for education. privacy issues are HUGE. joindiaspora or something similar may work in future.

16-May-11 20:19 | mrNeilButler

@saorog agree, would like to chat about it at some stage not just in passing at conferences #Edchatie

16-May-11 20:19 | pamelaaobrien

@conpower hard to get their attention alright #Edchatie

16-May-11 20:19 | pamelaaobrien

I think IEPs are continuous documents, that are meant to be adjustable & kept very much alive as the student progresses (or not) #edchatie

16-May-11 20:18 | fboss

#edchatie @NL\_84 nything that makes teachers feel more swamped might be a bad idea. Instead VLEs make our job easier in the long run.

16-May-11 20:18 | evelynoconnor
