@MsTumelty @pamelaabrien @tbbrwn @fboss Average teacher waits 700 millisecs for a student to reply, then jumps in! #edchatie

19-Dec-11 20:54 | CuffeL

@pamelaabrien agreed...Maths are a challenge for some Stus' input-too used to "listen to lecture" model? good for review, though! #edchatie

19-Dec-11 20:55 | tbbrwn

@pamelaabrien #edchatie it does very much depend on the group in front of u, it all depends on the mix, esp in sec level I find

19-Dec-11 20:55 | MsTumelty

@milesmac Thats a cool thought, and allows me to justify the expense! how is it for interactivity? #edchatie

19-Dec-11 20:56 | CuffeL

@CuffeL @mstumelty @tbbwrn @fboss think Maths as a subject need an overhaul in how it's taught - controversial I know!! #edchatie

19-Dec-11 20:58 | pamelaaobrien

@pamelaaobrien @lissmiss True, must get more PP schs involved. Great opportunities for Skype / G+ collaboration #edchatie #ccGlobal

19-Dec-11 20:58 | noeleenleahy

@tbbwrn @fboss Its really good in math teaching #edchatie

19-Dec-11 20:58 | Ilotimo

@MsTumelty it definitely does depend on the group - my mature students have no problem speaking up which is great #edchatie

19-Dec-11 20:58 | pamelaaobrien

@JoHart "Use less LMS" -> What would you replace it with though as you work through an online environment <- like the idea #edchatie

19-Dec-11 20:59 | fboss

@clairebrooks #edchatie LMS = restricted audience, students don't "own". Have won project funding for blogs as simple media rich portfolios

19-Dec-11 20:59 | JoHart

@CuffeL @pamelaaobrien #edchatie totally agree we did a challenge like dat at our last staff inservice, I make myself count to 30 at least now

19-Dec-11 20:59 | MsTumelty

@tbbwrn I have been working hard to undo the sheer terror at Maths with some success - must be willing to meet me half way though #edchatie

19-Dec-11 20:59 | pamelaaobrien

19-Dec-11 21:00 | JoHart

@pamelaaobrien @mstumelty @tbbwrn @fboss Maths:overhaul how its taught,and examined. Maybe project maths will work for mainstream? #edchatie

19-Dec-11 21:00 | CuffeL

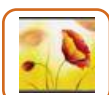

@CuffeL @milesmac Heard of schools setting up their own servers to host Minecraft for their students.Can tweak environment too #edchatie

19-Dec-11 21:00 | fboss

@fboss #edchatie replace with blogs. other Web2.0 tools and more focussed use of virtual classroom (Elluminate/BbC) atm we use for "drop-ins"

19-Dec-11 21:01 | JoHart

@MsTumelty @cuffel I do wait I promise - more often than not I'm met with silence. Try different approaches and will keep trying #edchatie

19-Dec-11 21:01 | pamelaaobrien

@pamelaaobrien #edchatie mathematics is well suited to technological innovation - manipulations, models, charting, pattern graphs #edchatie

19-Dec-11 21:01 | milesmac

@milesmac I do try some of that - java programming with my computing students worked really well this year #edchatie

19-Dec-11 21:03 | pamelaabrien

19-Dec-11 21:03 | NL_84

19-Dec-11 21:03 | noeleenleahy

19-Dec-11 21:03 | CuffeL

@fboss #edchatie to suit both really - but need for stdnts as we have disengaged youth (sch dropout) + mature age adults - aim indiv blends

19-Dec-11 21:03 | JoHart

@CuffeL @pamelaabrien @mstumelty @fboss I dig the project maths idea...give stus an idea _why_ and _how_ maths are relevant #edchatie

19-Dec-11 21:04 | peter_lydon

19-Dec-11 21:04 | tbbrown

@pamelaabrien @CuffeL #edchatie think Jnr Hist needs to be shortened personally or more options given to chose as very rushed for all!!

19-Dec-11 21:05 | MsTumelty
