30-Jan-12 20:40 | fboss

RT @ConnollyTrevor: #EdChatie @fboss Is that what were all doing on EdChat? >> absolutely, have learned lots in last yr #Edchatie

30-Jan-12 20:42 | fergalkenny

#edchatie How we learn through ICT has changed enormously, even over the past five years. The advent of Web 2.0 technologies has changed us

30-Jan-12 20:44 | seomraranga

30-Jan-12 20:45 | StephenDevlin3

@fergalkenny agreed, think this fear is what keeps many from using technology #edchatie

We need to teach failure which is more important than success as a learning step #edchatie

30-Jan-12 20:50 | johnmayo

@StephenDevlin3 I like to think that folks' fear of ICT is abating somewhat with the widespread use of mobile devices, etc. #edchatie

30-Jan-12 20:50 | tbbrwn

30-Jan-12 20:51 | LanganLisa

@fergalkenny it's ever changing so lots feel like that. Key is to find things that work for you and students #Edchatie

30-Jan-12 20:51 | pamelaaobrien

@CuffeL @msmreilly I think the challenge is for the teacher too, in teaching learners who will expect to learn in this way #edchatie

30-Jan-12 20:51 | fboss

RT @johnmayo: We need to teach failure which is more important than success as a learning step #edchatie

30-Jan-12 20:51 | CuffeL

Semantic web is scary narrowing our world view and cutting us off from contrary viewpoints #edchatie

30-Jan-12 20:51 | maugherowschool

@tbbrwn #edchatie I agree but it still exists unfortunately! I see every day! :(

30-Jan-12 20:51 | StephenDevlin3

@CuffeL I'm following that from a distance #edchatie

30-Jan-12 20:52 | fboss

@johnmayo It's important too to have a supportive environment where it's ok to make mistakes/have failures (cause we all make em) #edchatie

30-Jan-12 20:52 | tbbrwn

@johnmayo #edchatie The self paced element allows for more success thankfully. Also appeals to more diverse range of learning styles

30-Jan-12 20:52 | mariesynnott

I tell the students the only way to break the computer is to throw it out the window. Want to avoid them ever having 'The Fear' #edchatie

30-Jan-12 20:54 | LanganLisa

#edchatie I also deliberately have something go wrong in front of a class to show it happens to everyone

30-Jan-12 20:54 | johnmayo

@fergalkenny absolutely, reality is kids more comfortable in that tech space but teachers need to use tech in spite of fears #edchatie

30-Jan-12 20:55 | pamelaaobrien

@LanganLisa It's the first steps that count...you're here! You're learning! so are we :) keep at it & help bring others along #edchatie

30-Jan-12 20:56 | pamelaaobrien

@ConnollyTrevor Yeah! Hate being out of my comfort zone - but love learning something new, so I have to #edchatie

30-Jan-12 20:57 | fboss

30-Jan-12 20:58 | pamelaaobrien
