#edchatie @fboss only problem with that assumption is can easily lead to an excuse too - Internet not working, brother using laptop etc.

20-Feb-12 20:38 | StephenDevlin3

Hi all - I've been using technology to make things more interesting, is that of any use? #edchatie

20-Feb-12 20:38 | syded06

RT @conpower: @SabineMcKenna #edchatie We surveyd our students, there's a small amount that don't have internet but its still significant.

20-Feb-12 20:38 | fboss

@seomraranga @SabineMcKenna #edchatie Agree on the salient points. Lots of students first powerpoint is copy paste from Wikipedia

20-Feb-12 20:38 | NL_84

@conpower @fboss @SabineMcKenna Same here, some children don't have internet access #edchatie

20-Feb-12 20:38 | 7MJB

@conpower @fboss Could homework clubs meet that - provide internet access in school after home time for those without access? #edchatie

20-Feb-12 20:38 | SabineMcKenna

#edchatie I've done it before- given a few nights to research a topic. Found huge variety n homework tho- same few making all the effort.

20-Feb-12 20:38 | m2thefizzle

@fboss @SabineMcKenna #edchatie I use the internet every year and always find 1 or 2 that don't have it and others with broken laptop etc

20-Feb-12 20:39 | mariesynnot

@conpower @seomraranga #edchatie Getting information rather than copying it must be learned, agree. There are other ways of using the 'net!

20-Feb-12 20:39 | SabineMcKenna

@conpower That's the digital divide kicking in - would be interested in solutions to it - HW Clubs for one being mentioned now #edchatie

20-Feb-12 20:39 | fboss

@SabineMcKenna this is something I'm looking at doing. Homework would be to watch videos and make suitable notes #edchatie

20-Feb-12 20:40 | PetersonJK

#edchatie Andrew Manson, new media producer & founder of a CEIAG resource for schools

20-Feb-12 20:40 | AndrewManson1

@SabineMcKenna then class time could be used more productively, this would make them more independent and prepare them for life #edchatie

20-Feb-12 20:41 | PetersonJK

@SabineMcKenna I'm not convinced by the flipped model. Just forget homework and make schools places of learning. #edchatie

20-Feb-12 20:41 | dmchugh675

Use of internet during school time more realistic. Homework could be plans for use of computer eg preparing a blog post. #edchatie

20-Feb-12 20:41 | Tubzjnr

@seomraranga Or using Edmodo, MangaHigh etc. - saves teachers work on correcting it, too! #edchatie

20-Feb-12 20:41 | SabineMcKenna

We should strive to set homework that students should enjoy doing #edchatie

20-Feb-12 20:41 | johnmayo

20-Feb-12 20:41 | susanleahy

@NL_84 #edchatie Do kids have Blog access at home or do they just do draft posts at home?

20-Feb-12 20:42 | seomraranga

Sandra. Sub in Mayo. Not safe2 assume. Not all kids have equal support/opportunities. Gather info @home & use technology in class #edchatie

20-Feb-12 20:42 | Happy0range

#edchatie Often it's the parents who end up doing research/projects. Need to be careful we give homework the child can do independently

20-Feb-12 20:42 | mariesynnot

#edchatie I also get them to just watch TV - News etc. and it's on all day so no real excuse! Great for them to know current affairs

20-Feb-12 20:42 | StephenDevlin3

@dmchugh675 #edchatie Greetings! Sorry for being late sir!

20-Feb-12 20:47 | peter_lydon

@johnmayo WOndering why, as it's the students' learning, they don't set own goals and therefore own homework to achieve it #edchatie

20-Feb-12 20:47 | fboss

@lanFleming1 I give them a topic every week, or get them to suggest, then they have the week to make the post on Kidblog #edchatie

20-Feb-12 20:47 | NL_84

I find that kids like doing homework that involves research, not necessarily requiring the net, maybe check weather in the paper #edchatie

20-Feb-12 20:47 | Little_Toni

20-Feb-12 20:48 | PetersonJK

@dmchugh675 @johnmayo Kids will never admit they enjoy hw, but researching for a project they care about often gets them going. #edchatie

20-Feb-12 20:48 | SabineMcKenna

@syded06 what do you use by the way? #edchatie

20-Feb-12 20:48 | PetersonJK

#edchatie Homework should always facilitate creativity - 'write summaries' is so 19th century.

20-Feb-12 20:48 | peter_lydon

@susanleahy kidblog probably a bit basic for secondary, thoroughly recommend it for primary #edchatie

20-Feb-12 20:48 | NL_84

Give kids a choice. e.g. A blog / poem / poster / interview family members, etc. This way they have options. #edchatie

20-Feb-12 20:48 | Happy0range

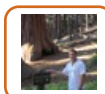

@mariesynnott @seomraranga I wouldn't say so but have never taught 1st. Parents help would suffice I imagine. #edchatie

20-Feb-12 20:49 | NL_84

How homework is presented can often make a difference. I write diff tasks in diff colours. Have called it "Homefun" in the past too #edchatie

20-Feb-12 20:49 | Little_Toni

@PetersonJK Thanks I'll look into it. I use screenflow with omnidazzle and a graphics tablet and then upload to youtube #edchatie

20-Feb-12 20:49 | syded06

@Little_Toni #edchatie Exactly! Books (library, school), interviews, internet, all can come into play. Some will have more than others - so?

20-Feb-12 20:49 | SabineMcKenna

20-Feb-12 20:50 | dmchugh675

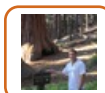

RT @peter_lydon: #edchatie Homework should always facilitate creativity - 'write summaries' is so 19th century.

20-Feb-12 20:50 | HazelKLarkin

20-Feb-12 20:51 | conpower

@pamelaabrien Dress up research - I have kids research a volcano but call it 'Adopt a Volcano'. #edchatie

20-Feb-12 20:51 | peter_lydon

@pamelaabrien #edchatie That's the problem with the curriculum. I teach History and there is no credit for local history / oral history

20-Feb-12 20:51 | conpower

@dmchugh675 #edchatie The trick is to get them to share their learning with the others! Posters, blogs, art, the more diversity the better

20-Feb-12 20:52 | SabineMcKenna

#edchatie Sorry late - just joining. Flipped classroom - hear of it yet?

20-Feb-12 20:53 | CharliSolo

@SabineMcKenna @dmchugh675 #edchatie gloated great for them. Create posters based on research. Saw lovely glogster work based on WWI

20-Feb-12 20:53 | pamelaaobrien

@fboss @sabineMcKenna #edchatie Wouldn't that be best queried to parents with other info @ start of yr? Tick box, work frm there?

20-Feb-12 20:53 | celaV

#edchatie Researching candidates for elections etc can be interesting homework. Interviewing family members, compiling graphs.

20-Feb-12 20:53 | mariesynnot

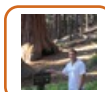

#edchatie get kids to do collaborative homeworks - really pushes the independent learning envelope.

20-Feb-12 20:53 | peter_lydon

@Vormamim That's a thing I've tried to push in my art classes - just letting ideas flow & be teased to help them along #edchatie

20-Feb-12 20:54 | fboss

To enhance learning we are trialling a 1:1 ipad trial and make homework more productive #edchatie

20-Feb-12 20:54 | syded06

@fboss Not too bothered re using it for receptive activities, problem is overreliance (or incompetence) when writing... #edchatie

20-Feb-12 20:54 | susanleahy

@CharliSolo I have a flipped class - do you flip you classroom? #edchatie

20-Feb-12 20:54 | syded06

@conpower #edchatie I took my own kids around mining sites in my home village. Hope to get them to do some projects based on it

20-Feb-12 20:54 | pamelaaobrien

@celaV Good point & a good way to organise it from the word go too. Also Soc. Media sites usually based around 13yrs old & up #edchatie

20-Feb-12 20:55 | fboss

@celaV It would also depend on what type of site would need to be accessed. Personally, was thrilled to see daughter on Edmodo #edchatie

20-Feb-12 20:55 | fboss

20-Feb-12 20:56 | pamelaaobrien

@pamelaaobrien #edchatie nice topic for that.

20-Feb-12 20:56 | peter_lydon

20-Feb-12 20:57 | peter_lydon

@pamelaaobrien @peter_lydon #edchatie On teaching practice back in 2000 I had the students make & attach castles on Age of Empires

20-Feb-12 20:57 | conpower

@pamelaaobrien #edchatie sounds like a small boys dream.

20-Feb-12 20:57 | peter_lydon

@peter_lydon #edchatie it was great - they made replicas etc. very engaged

20-Feb-12 20:57 | pamelaaobrien

@syded06 #edchatie I am very interested in it - I work with teachers and trying to encourage the flip

20-Feb-12 20:57 | CharliSolo

@pamelaaobrien #edchatie best of all - he'll carry the love of that with him.

20-Feb-12 20:58 | peter_lydon

@syded06 #edchatie so would love to hear more. how is it working out?

20-Feb-12 20:58 | CharliSolo

My colleague sometimes gives class an art project for H/W, usually to celebrate a festival. Children love it! #edchatie

20-Feb-12 20:58 | 7MJB

@conpower But are you still doing it now? #edchatie #iGBL

20-Feb-12 20:58 | johnmayo

@SabineMcKenna @PetersonJK Like Jing alright. Students should ask 3 other students after instruction given before asking teacher #edchatie

20-Feb-12 20:58 | fboss

@pamelaaobrien @peter_lydon #edchatie There are loads of ways to bring history to life but I would like JC students to get credit for them

20-Feb-12 20:58 | conpower

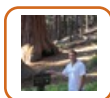

@peter_lydon #edchatie it was. We made a shield and a sword from cardboard. He was very particular that it was true to what it should be

20-Feb-12 20:58 | pamelaaobrien

@syded06 My flipped classroom begins this week. Using explain everything for iPad + Jing for the difficult-to-do-on-iPad bits #edchatie

20-Feb-12 20:59 | riley_ed

@CharliSolo I'm a convert and have some data that points to short term success. The students are incredibly positive about it #edchatie

20-Feb-12 20:59 | syded06

@principalrockto #edchatie topic tonight is: How can we make homework more interesting and not just continuous writing exercises?

20-Feb-12 20:59 | fboss

#edchatie How can we make homework more interesting and not just continuous writing exercises? Interesting how we began with ICT for this

20-Feb-12 21:00 | fboss

@peter_lydon #edchatie he loves history anyway but he really connected with that learning

20-Feb-12 21:00 | pamelaaoobrien

@AndrewManson1 #edchatie and flipped doesn't always give kids the benefit of the sage on the stage while prepping..can come in as lost

20-Feb-12 21:00 | peter_lydon

@dmchugh675 - so access is key, but can be mitigated for by providing open ended access at school..yes? #edchatie

20-Feb-12 21:00 | AndrewManson1

@conpower @peter_lydon #edchatie we have such a rich history it's a pity not to exploit it

20-Feb-12 21:01 | pamelaaoobrien

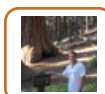

@BridCarlow Hated the Friday Spelling Tests - seemed so out of context! #edchatie

20-Feb-12 21:01 | fboss

@dmchugh675 #edchatie Some students don't have internet, but some students don't have facilities for traditional homework also

20-Feb-12 21:01 | conpower

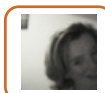

@AndrewManson1 I agree it does favour them but I also feel we try everything to engage the less inclined #edchatie

20-Feb-12 21:01 | syded06

Interviewing parents always goes down well. We use them for everything! option is given to record on mob&send and we watch on IWB #edchatie

20-Feb-12 21:01 | MaurMc

@pamelaaoobrien #edchatie yes.

20-Feb-12 21:01 | peter_lydon

@AndrewManson1 Also...learning is constructed through experience and interaction. This is what school is about surely? #edchatie

20-Feb-12 21:01 | dmchugh675

Spelling City can be a fun way to practise spellings at home #edchatie

20-Feb-12 21:01 | NL_84

20-Feb-12 21:03 | pamelaaobrien

#edchatie I got kids to make posters to teach other kids a grammar topic with-graded it as assessment. Was surprised & impressed by quality.

20-Feb-12 21:03 | susanleahy

#edchatie @fboss There now, you've mentioned the war. That is the obstacle - the exam!

20-Feb-12 21:03 | CharliSolo

#edchatie Sorry so late! Tonight some of my students choosing their fav photo from <http://t.co/KTGfNzN6> & have to justify thier choice.

20-Feb-12 21:03 | evelynoconnor

@MaurMc #edchatie Sounds interesting- what websites do u use? Am feeling v old fashioned since I joined this chat:-)

20-Feb-12 21:03 | m2thefizzle

@syded06 my work plays to the flipped approach so I am a natural for it, but need to better understand pitfalls also.. #Edchatie

20-Feb-12 21:04 | AndrewManson1

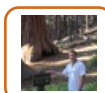

@conpower I know - was wondering how it would go tonight as ICT not mentioned in the topic per se. Interesting mix tonight on #edchatie

20-Feb-12 21:04 | fboss

@susanleahy #edchatie I love it when they make posters with pockets, flaps, swipes etc.

20-Feb-12 21:04 | peter_lydon

@peter_lydon absolutely so students post notes to edmodo prior to lesson so we have a monitoring system of sorts #edchatie

20-Feb-12 21:04 | syded06

@CharliSolo OOooops! I guess someone had to point at the elephant in the room ;-) #edchatie

20-Feb-12 21:04 | fboss

20-Feb-12 21:05 | fboss

RT @7MJB: RT @BridCarlow #edchatie no Friday spelling tests with us, dictation based on words children need, used in context < great idea, makes sense

20-Feb-12 21:06 | pamelaabrien

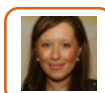

#edchatie Asked 3rd class last yr to record their reading, listen to and make notes. Made for a grt discussion the next day on read skills

20-Feb-12 21:06 | mariesynnot

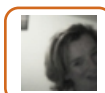

@fboss @PetersonJK @syded06 #edchatie Camtasia is good, and Captivate too. Both have multiple storage and export options.

20-Feb-12 21:07 | conpower

@fboss @CharliSolo #edchatie Often find older students reluctant to 'create' in any form other than written exam questions.

20-Feb-12 21:07 | evelynoconnor

@m2thefizzle <http://t.co/cUilK4b0> & <http://t.co/2kTEpdCX> can be good with 1st - 3rd yrs #edchatie

20-Feb-12 21:07 | MaurMc

@fboss The fact that we don't trust them and instead spoon feed is the reason they become incapable of independent learning #edchatie

20-Feb-12 21:07 | dmchugh675

Has anyone ever given a year-long worthwhile project as hw? Learn an instrument, how to cook Italian food etc? #edchatie

20-Feb-12 21:07 | NL_84

@fboss @syded06 you can but it's a swf file which is an awkward format #edchatie

20-Feb-12 21:10 | riley_ed

@NL_84 #edchatie our TY kids do Gaisce

20-Feb-12 21:11 | peter_lydon

I once wrote "Go out and play in the sunshine" on the board for h/w. Went down a treat #edchatie

20-Feb-12 21:11 | 7MJB

@conpower #edchatie Thanks for that, will do.

20-Feb-12 21:11 | mariesynnot

@7MJB #edchatie I sometimes get them to FIND an interesting poem/article/blog post & post a link to it on edmodo so other students can read!

20-Feb-12 21:11 | evelynnoconnor

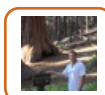

#edchatie I'd say student read more these days. The only problem it is facebook updates and text messages. No quality!

20-Feb-12 21:11 | conpower

@peter_lydon I did the same in TY, wonder why a similar idea isn't extended to more years, esp primary as no exams looming #edchatie

20-Feb-12 21:12 | NL_84

@riley_ed with flipped class they all respond to 2 initial questions at start of lesson and I display all answers. Immediate AFL #edchatie

20-Feb-12 21:12 | syded06

20-Feb-12 21:14 | PetersonJK

#edchatie When I had senior pupils I tried to give choice within parameters for project work eg. animal/bird/fish of your own choice.

20-Feb-12 21:14 | seomraranga

@PetersonJK WHat about a video re-formatting program - YouTube Downloader? #edchatie

20-Feb-12 21:14 | fboss

@IanFleming1 True. Students could maintain a blog or folder documenting their progress with text, pics, video etc. #edchatie

20-Feb-12 21:14 | NL_84

@NL_84 With younger ones it's often dinosaurs, castles, monsters. I let my gang choose class library bk to bring home at wkend. #edchatie

20-Feb-12 21:15 | 7MJB

@PetersonJK @riley_ed exactly and there are certain consequences if lack of knowledge!! #edchatie

20-Feb-12 21:15 | syded06

#edchatie Ask class to complete task i.e. make sandwich, then write instructions, add picture and how you would teach this skill.

20-Feb-12 21:15 | mariesynnot

#edchatie I think you are Powerpoint, Moodle, Email vs Pezi, Edmodo, Facebook. I am the former, my students the latter.

20-Feb-12 21:16 | conpower

@NL_84 Yes agree with you re leaving them roam around the room. Could be chaotic! I personally don't give a lot of homework. #edchatie

20-Feb-12 21:16 | Maria_Aylward

@evelynoconnor #edchatie Moodle has collaborative Wikis, discussion boards, polls etc.

20-Feb-12 21:19 | conpower

@conpower #edchatie Fair enough, think my perception of moodle is limited. Perhaps edmodo just looks and feels more like "their" space??

20-Feb-12 21:19 | evelynoconnor

@seomraranga #edchatie Also did this in Irish and English, great fun. Tonguetwisters via time trials also funny

20-Feb-12 21:19 | mariesynnot

@evelynoconnor #edchatie But in a lot of instances its just used as a resource dump.

20-Feb-12 21:19 | conpower

@ConnollyTrevor #edchatie must use carefully - doesn't necessarily give key words - just most occurring

20-Feb-12 21:19 | peter_lydon

@evelynconnor #edchatie Agree - Edmodo knew what they were doing copying facebook. Also Edmodo has no set business plan for the future.
